
SOLVENT

CONVERTING TO

WATER

CONVERTING SOLVENT BASED TO WATER BASED (1K & 2K)

Advantages

Better work environment

- No solvent emissions.
- No solvent cleaner - only soap and water.

Higher intensity

- Higher solids.

Higher efficiency

- Faster processing.

No fire hazard = cost savings

- No after burner required.
- Cheaper printing press & equipment.
- Cheaper building & installations.
- Reduced insurance cost.
- Cheaper warehousing.
- Cheaper transport.
- No solvent thinner - only tap water.

Replacing 2K with 1K

- Reduced ink consumption.
- Less ink waste.
- Less substrate waste.
- No potlife stress and print waste.

Solvent based ink series

Water based alternative

High quality surface print on plastics

Reflex 135 series  Revalux 161 series

High quality surface print on paper

Reflex 135 series  Revalux 153 series

Extra water resistant and outdoor exposure version

Reflex 139 series  Revalux 167-01 series

2K to 2K boiling & sterilization resistant surface print

Returin 194  Revalux 168-22
Restine 170 / 173 / 175 / 176  Revalux 168-22
+ Redivers 300 promotor 5032  + Redivers 300 promotor 9900

2K to 1K boiling & sterilization resistant surface print

Returin 194
Restine 170 / 173 / 175 / 176  Remonaq 165 series
+ Redivers 300 promotor 5032  (1K with 2K properties)

Water based series

New water based series

2K to 2K boiling & sterilization resistant surface print

Revalux 168 & 168-13  Revalux 168-22
+ Redivers 300 promotor 9700  + Redivers 300 promotor 9900

2K to 1K boiling & sterilization resistant surface print

Revalux 168 & 168-13  Remonaq 165 series
+ Redivers 300 promotor 9700  (1K with 2K properties)

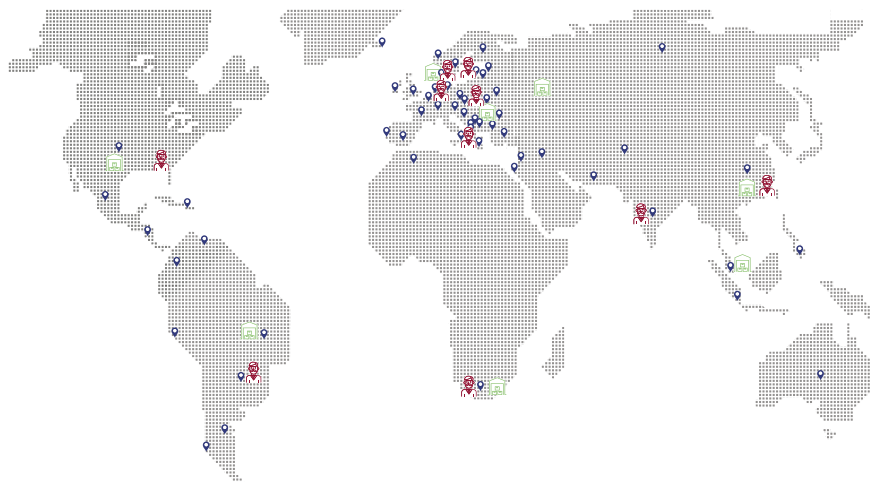

Our products are supplied
in more than 64 countries.
